FORT MYER HEIGHTS-READ THE "POST" of July 5, giving official information from the War be-partment about the new memorial bridge. The government invites 15 of the most eminent bridg: engineers in the United States to submit plans and bids for the memorial bridge to cross the river at the old observatory. The "Post" further says: The President is very greatly interested in the project and would be glad to see it commenced, at least, during his administration." The wise individual without a dollar in his pecket, who has continually thrown a serious expression on his face and predicted this bridge would never be built, has left the city on the midnight freight train for parts unknown, while the shrewd investor bought up property across the river which a few years ago was of little value and bids fair now to bring city prices in the hear future. In fact, lets across the river sold recently at \$1.00 a sq. ft. (at the rate of \$43.560 an acre). The wise individual never tires himself to find the source of information by which thousands of his fellow men are growing richer while he is growing cider and poorer. The man who speculates in real estate may at times go broke and at times have his hundreds of thon-sands, while the other fellow never has anything. The less money you have, the more important it is for you to speculate, as it is only the rich who can afford to take 4 and 5 per cent for their money. The largest fortunes in our country grew from sums of \$10, \$50 and \$100. Remember our challenge for you to visit every suburb around Washington, then let us show you our property, and if we do not show you more for your money than you can get elsewhere, then we have a new \$30,000 court house. This alone means the building of 50 to 100 houses. Remember, congress will be asked to take this property into the city. Remember, we are ½ mile nearer the White House than Mt. Pleasant (see D. C. m
